

Organized by:

SWISS BIOTECH DAY FALL 2018

Thursday, September 27, 2018, Biopôle, Lausanne

The race to innovate & pathways to ROI

Perspectives from drug developers, investors and academia

Swiss Biotech Day is the leading biotechnology conference in Switzerland with an edition in spring and fall.

Join Swiss Biotech Day Fall, coinciding with EuropaBIO's European Biotech Week, to meet senior executives from the Swiss biotech industry – entrepreneurs, investors, researchers, analysts, political decision makers and stakeholders.

The half-day program focuses on lessons to be learnt from the race to innovate, with perspectives from drug developers, investors and academia. Networking opportunities accompany plenary sessions.
